INSTRUCTION TO CANDIDATE

- The test will be objective in nature and for each question several suggested answers will be given of which only one answer will be correct.
- The Answer Sheet will be machine scored and therefore requires specific procedure to be followed as given below :
 - The answers will be marked only with pencil and that too only with an HB one.
 - The method of marking answers is indicated below.
 - Each question will be followed by answers marked as (A), (B), (C), (D) or (E). Select the most appropriate answer. Then using HB Pencil blacken the oval bearing the correct answer index against the serial number of the question on the answer sheet. For example, If the answer to question number 2 is C, is to be marked as follows :

Question 2 : (A) (B) (C) (D) (E)

- Please note that you should not use H, 2H/HH, 3H type of pencils. The marks made with such hard pencils will be too light and will not be read by the computerised machine. So such hard pencils are not to be used.
- If you use too soft pencils like, 2B/BB, 3B etc. your marks will be too dark. So when you want to change your answer by erasing the first one, there may be smudges or dark marks in place of the erased answer and around it. So soft pencils are not to be used. Therefore, use only HB pencils.
- Some wrong methods of marking answers :

Please do not mark your answers or fill up information by using any of the following methods of marking

(Use of tick marks)

(Use of cross mark)

(Use of dot)

(Use of line mark)

(Half filled oval)

(Mark outside the oval)

In all the above cases, though you may have given the right answer, it may not be read by the machine because of wrong method of Marking the answer.

- Please note that the oval should be dark enough and should be filled in as completely as possible. You need not make special efforts to darken any oval artistically.
- How to change your answer : If you wish to change your answer, erase completely the already darkened oval using good quality eraser and then blacken the new oval bearing your revised answer.
- While changing the answer it is essential to erase the earlier answer completely, if it is not erased completely, smudges will be left on the erased oval and the question will be read as having two answers and will be ignored for giving any credit.

SOME IMPORTANT POINTS :

The machine will first read your Roll No., The Serial number of the Test Booklet and Form No. From the answer sheet and then evaluate your answers. Therefore you must show your roll number and test booklet number, from No., Booklet series correctly by filling correct ovals with HB pencil.

- You are advised to bring with you the following things:
 - Admit card for the written test.
 - Two HB pencils, a good quality eraser, a sharpener and a ball pen.
- Your answer sheet may not be assessed :
 - If you use any method of making your answer other than darkening the ovals.
 - If you do not write all the information required on the answer sheet such as Roll No, Test Booklet Serial No. & Form No. etc., and Blacken the appropriate the ovals.
 - If you do not handle your answer sheet carefully.
 - If you do not use HB pencil for marking on the answer sheet.

This test is little different from the examination that you have appeared in your school or college. So read the following instruction carefully.

SOME IMPORTANT RULES

- Read the direction for each of the parts of the test carefully. The test will be divided into several parts which are separately timed. Use your time as economically as possible. Do not waste time in pondering over questions which seem difficult or ambiguous to you. Do not worry if you can not answer all the questions within the time limit. The test is so designed that it is difficult for you to complete the entire test within time limit.
- Do not give more than one answer to any question as there is only one correct answer to each question. If more than one answer is given by you for a question it will be counted as wrong. If after blackening an oval (O) on the answer sheet you want to change your answer, erase your first mark completely and then only blacken the new one.
- Follow the instructions given by the supervisor, when the supervisor asks you to start or to stop a test, or a section of a test you must follow his instruction immediately. This is very important.
